Multipurpose Higher Secondary School

XII

Ambikapur, CG

June 2017 – May 2018

EXPERIENCE

UI UX Developer

May 2024 – Nov. 2024

Autope Payment Solutions

Jaipur

- Translated wireframes, mockups, and designs into fully functional user interfaces using HTML, CSS, and JavaScript frameworks.
- Ensured design fidelity across multiple devices through responsive and adaptive design techniques.
- Implemented error handling, caching strategies, and optimized API calls for performance.
- Consumed RESTful APIs to fetch and display data dynamically on the frontend.
- Ensured the application works seamlessly across all major browsers and platforms.
- Managed code repositories using Git and collaborated on projects via platforms like GitHub, GitLab
- Developed reusable components and design systems to maintain consistency across projects.

PROJECTS

PWA (Progressive Web Application) version of the DMRC Momentum 2.0 App | *HTML, CSS, JQUERY, JAVAS*

- * Plan Your Metro Journey, Book QR Ticket
- * Metro Card Recharge: Allows users to recharge their metro cards directly through the app, with payment status updates and transaction history.
- * Rent a Locker: Enables users to view available locker sizes, select lockers, and book them for a specified time period using a seamless interface
- * Courier Bookings: A service for scheduling courier pickups and tracking packages sent through metro courier facilities.
- * Recharge Utility: Offers options to recharge metro cards or linked wallets for various purposes, such as ticket bookings or locker rentals.
- * Metro Stations Information: A detailed directory of metro stations with information like facilities, parking availability, contact details, and nearby landmarks.

Event Ticketing Website for HT City Unwind and ITPO Events: | *React*

- * Allow users to choose the number of tickets and type.
- * Enable account creation for tracking bookings.
- * Include multiple payment options (credit/debit card, UPI,)
- * Generate and Whatsapp a ticket with a QR code and order details
- * Downloadable e-tickets with QR codes.

CMS to Manage Different Service Details: | *React*

- * Overview of all services (number of active services, categories, and recent updates)
- * Graphical reports for service usage or user interactions
- * Create and edit service categories.

DMRC Ryder Sheryde Website for Driver Registration | *React*

- * Showcase the Ryder Sheryde platform's benefits for drivers and users.
- * Key features (e.g., easy registration and earning potential for drivers).
- * Document Upload System: Allow drivers to upload required documents (ID proof, license, RC). Use image preview and validation before submission.
